

LIDO Mission Statement

Last Updated Tuesday, 24 July 2007

To increase the quality and the quantity of telecommunications technology knowledge workers - strong minds fuel strong organizations!

To explain telecommunications, simply and clearly, to a diverse professional, academic, and consumer audience, worldwide.

To elevate knowledge workers' awareness and understanding of telecommunications principles, technologies, applications and industries.

To provide educational, advisory, and consulting services for developers, suppliers, regulators, investors, consultants and users of telecommunications technologies and networks.

To provide a single point of access to telecommunications knowledge and information services.

To support ongoing learning and ICT knowledge exchange by providing a web-based knowledge center and community.
